

Blue Planet

Raw Hemp & Avocado Oil Blend
(0.99% CBDA w/v; 10mg/ml CBDA)

Our finest raw organic hemp and avocado oil blend is made from infusing naturally, cold-pressed, organic sources. This blend is full of omega fatty acids, antioxidants and a body balanced, trace amount of CBDA (0.5% CBDA w/v; 10mg/ml CBDA). CBDA is the raw nutritional precursor for CBD in hemp cultivars of Cannabis.

What does Blue Planet CBDA do?

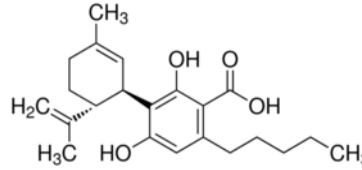

- Possible anti-inflammatory & COX-2 inhibitor. ^[1]
- Potential antimicrobial capacity for some bacteria. ^[2]
- Potential ability to kill cancer cells *in vitro*. ^[3]
- Reported benefits for autism verbal stimming & mood swings. ^[4]
- Naturally refined, certified organic ingredients.
- Laboratory tested formulation which varies no more than +/- 0.03mg/ml. ^[5]

Through a natural refinement process that takes advantage of gravity and free kinetic energy, we are able to extract and combine without the use of any solvents, petrochemicals or additives. The hemp oil flavor contains natural terpenes for a smooth taste.

Precautions & Recommendations :

- This form is NOT MEDICAL ADVICE.
- Always check with your physician before starting all supplements.
- DO NOT USE within 2 hours of a prescription pharmaceutical product, especially opiate based or other pain relievers.
- DO NOT HEAT or VAPE -- oils used in our formulation are NOT compatible and could cause harm or injury.
- Our product is not regulated by the FDA, however, a lot of research has been put into its creation.
- This product contains NO detectable CBD OR THC.
- MAY PROVOKE HEMP/AVOCADO ALLERGY-- discontinue use if you experience runny, itchy nose, eyes or mouth swelling-- seek immediate medical attention.

Molecular Structure of CBDA
